Far back in ages The plough with wreaths was crowned.
The hands of kings and sages
Entwined the chaplet round; Till men of spoil

By which the world was nourished And blood and pillage were the soil in which their laurels fourished; Now the world her fault despairs-The guilt that strains her story, And weeps her crime smid the cares That formed her earliest glory.

Disdalared the toil

The throne shall crumble. The diadem shall wane, The tribes of earth shall bumble The pride of those who reign, And war shall lay His pomp away : The pomp that heroes cherish,

The glory earned in deadly frag Shall fade, decay and perish. Honor waits o'er all the earth, Through endless generations-The art that calls the harvest forth. And feeds the expectant nations.

OINTMENT

THE GREAT COUNTER IRRITANT. The virus of disease often makes its way to the delivered 'at the Railroad Depote, in Newmarket | internal organs through the poresof the skin. This penetrating Cintment, melting under the band as it is rubbed in, is absorbed through the same channels, and, reaching the seat of inflamation, promptly and invariably subslues it, whether located in the kidneys, the liver, the lungs, or say other impor taut organ. It penetrates the surface to the interior through the countless tubes that communicate with the skin as summer rain passes into the fevered earth, diffusing its cool and regenerating influences.

SKIN DISEASES AND GLANDULAR SWELLINGS. Every species of exterior irritation is quickly reduced by the anti-juffanjatory action of the Uintmout Augry Excersions, such as SALT RHEUM, ERTSIPPLAS, PRIFA. RINGWORN, SCALO HEAD, NET-TLE RASH, SCADING (or Item.) &c., die out, to return no more, under its application. Haspital experience

in all parts of the world proves its infallibility in discusses of the skip, the muscles, the joints and the ULCERS, SORES AND TUMORS.

The effect of this unrivalled external rembly

upon Scrofula, and other virulent ulcers and sores, is almost miraculous. It first discharges the poison which produces suppuration and proud flesh, and thus the cures which its healing properties afterward complete are sale as well as permanent. Wounds, Bruises, Burns and Scalds. In cases of the fracture of the hones, injurie-RHEUMATHM, STIFFNESS OF THE JOINTS, and con-

traction of the shows, it is employed and warmly recommended by the faculty. This marvelous remedy has been introduced by its inventor in person into all the leading Hospitals of Europe, and to
